AI-Based Scoring

AlfaPTE is an Edtech platform developed for an Australia-based startup, offering an AI-based solution tailored for PTE practice. It empowers users to excel in both PTE Academic and PTE Core exams through a comprehensive suite of features that enhance skills across all four English language modules: Reading, Writing, Listening, and Speaking. Additionally, AlfaPTE provides a customizable white-label solution for institutes. Users can access AI-based mock tests, providing a real-time exam simulation.

Key Features

Question practice : Users can practise various kinds of practice questions (Reading Writing, Speaking, Listening) with AI powered STT (speech to text) solution.

Mock Test Simulation : Customise realtime exam like realistic PTE exams with AI-scored evaluations for pinpoint feedback. Also users can design their own Mocktest too.

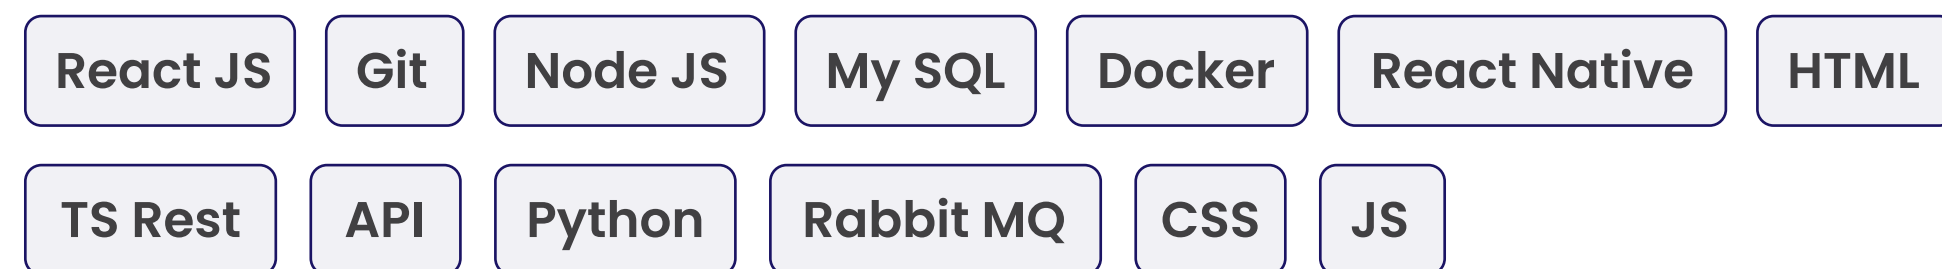

Study Plan : Web develop AI-powered study plan which helps students to achieve that desired score based on exam schedule and desired score.

Material Access : Provide various types of material like strategy video, prediction, grammar and templates which can help students to get the best score.

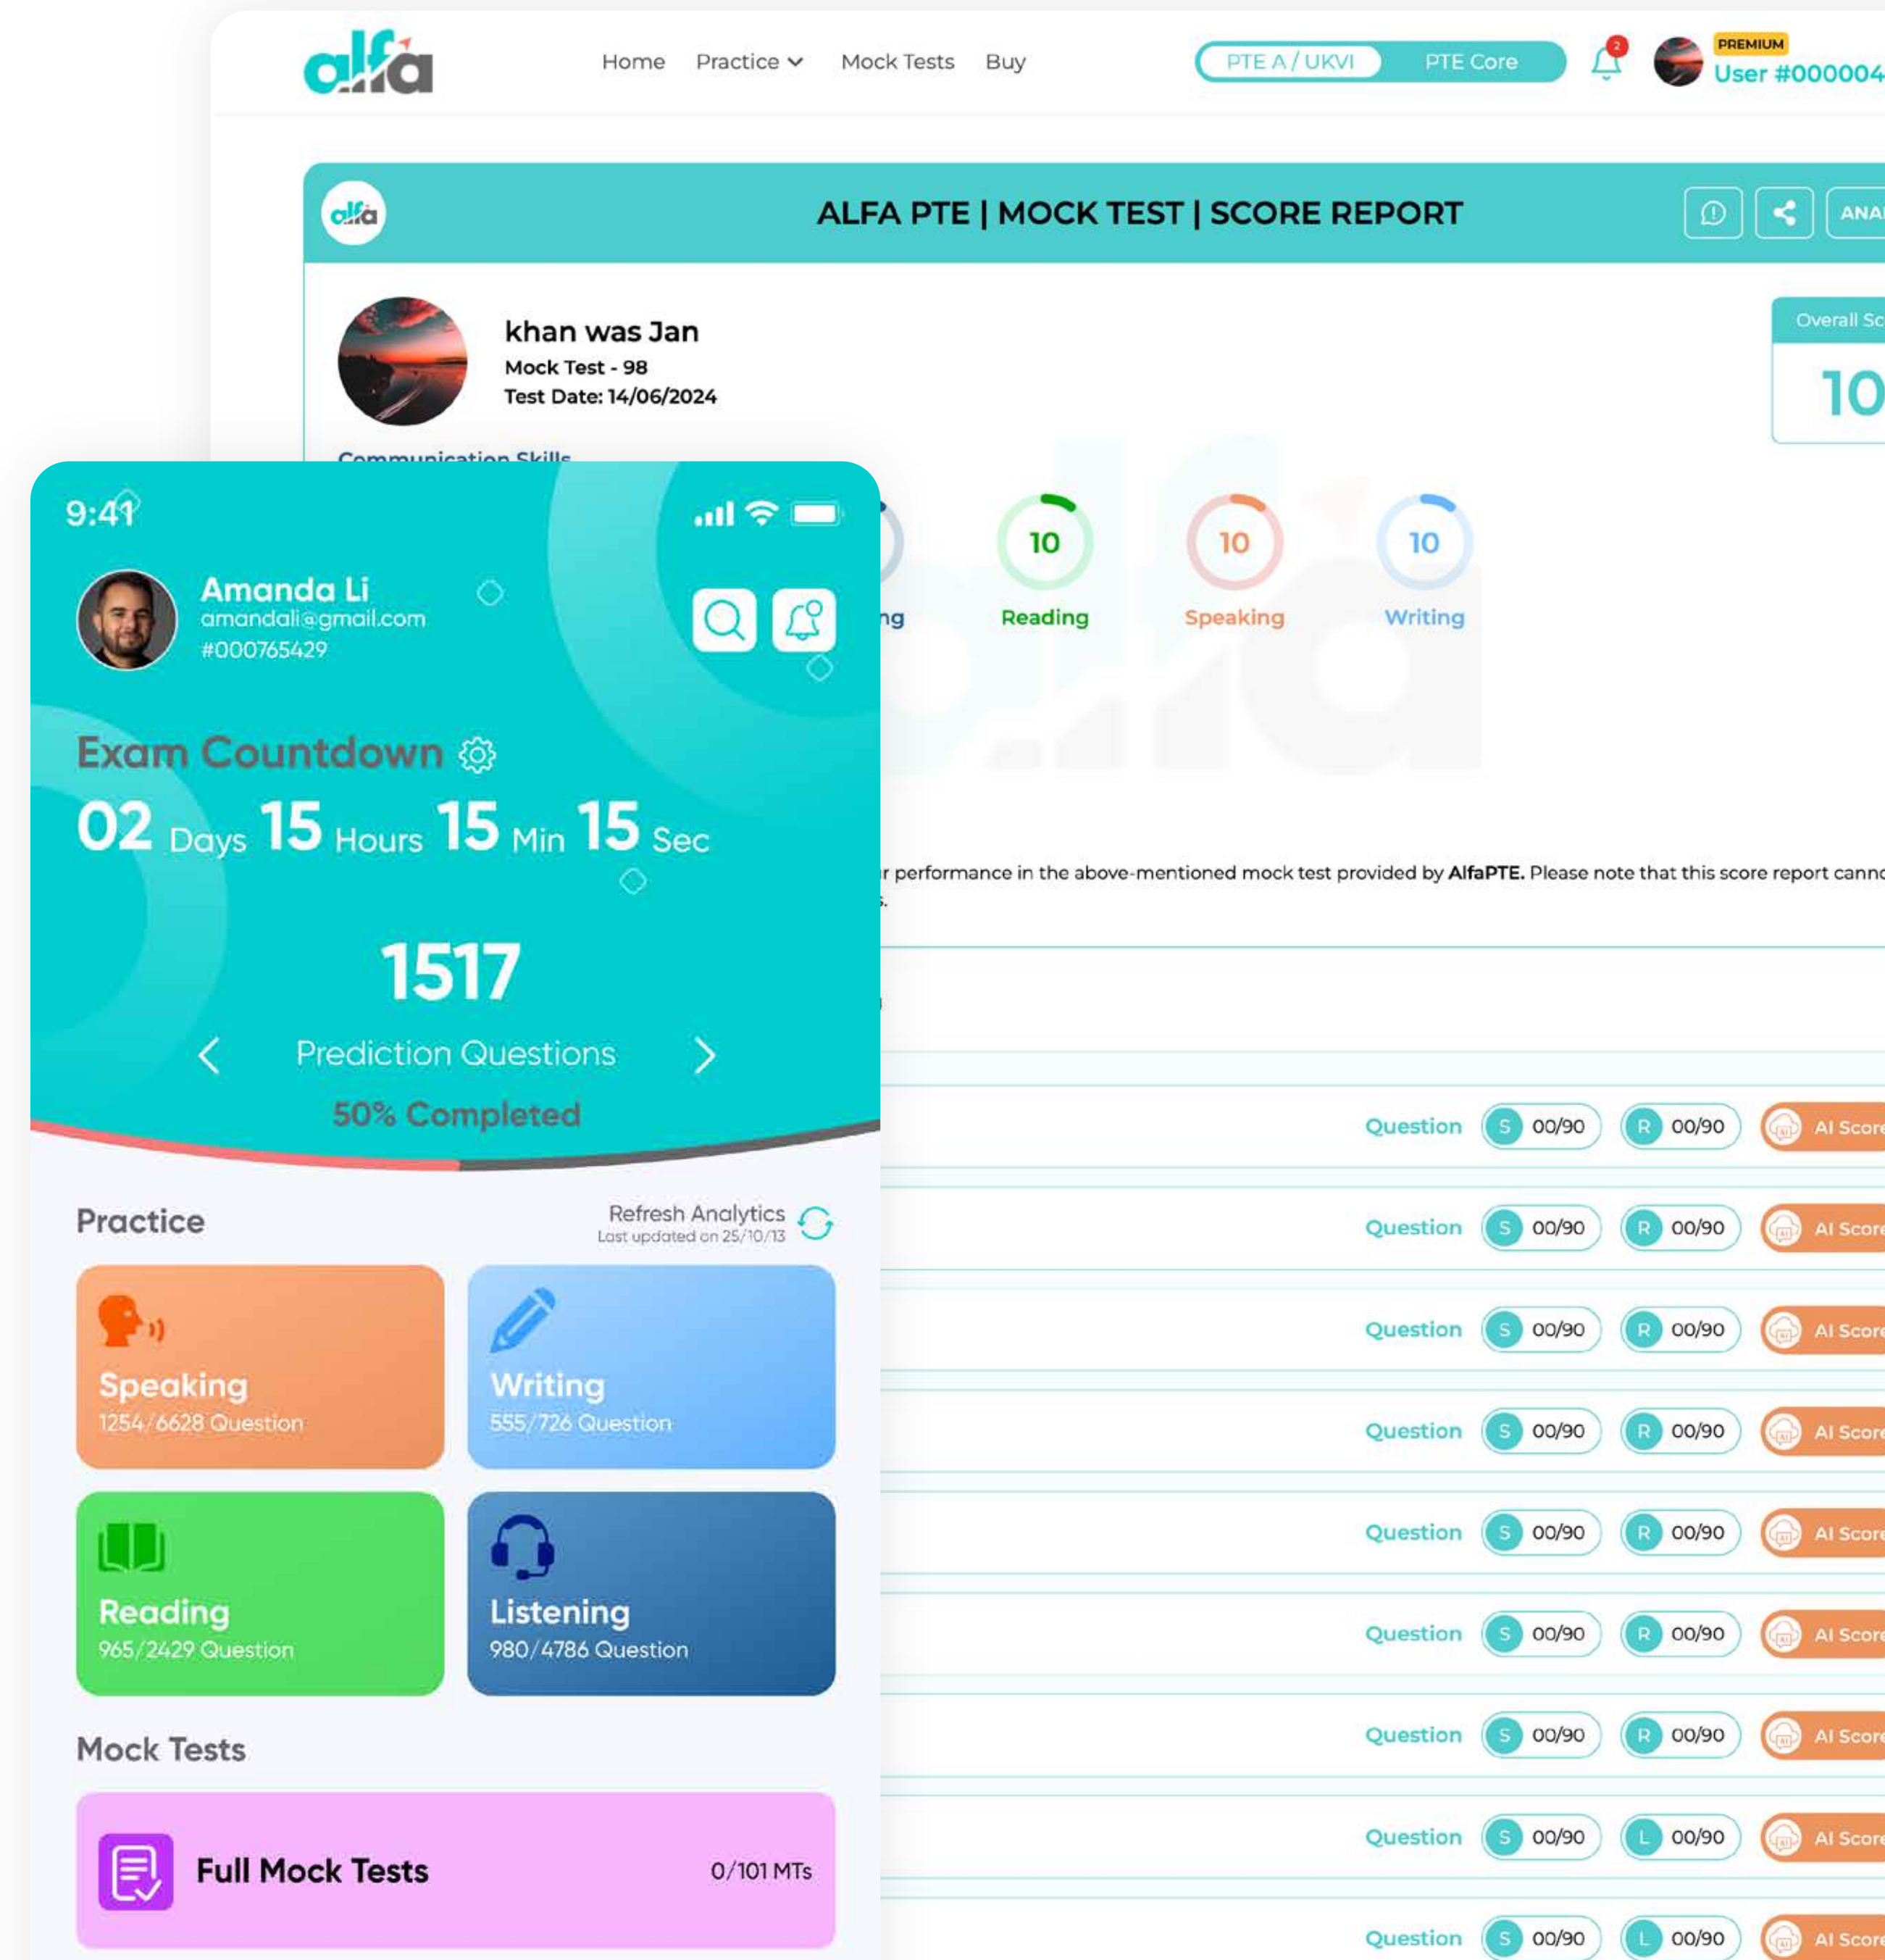

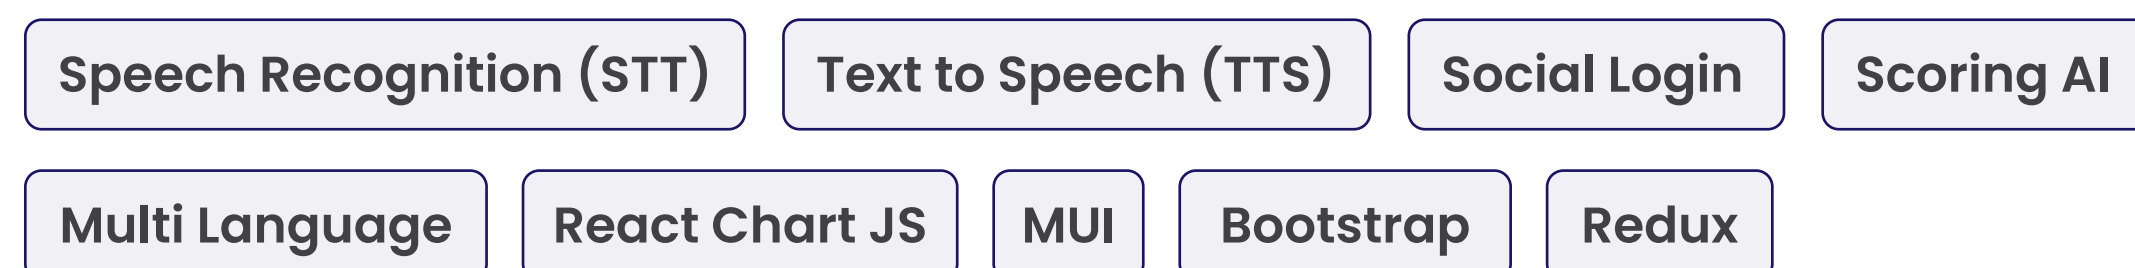

Analytics : Using our Analytics student can Track his progress and identify improvement areas with detailed, AI-driven performance insights.

White Label Solution : We provide customised fully branded solutions for institute to provide solution to institute to control over practice portal, student insights and practice progress too.

Business Name Suggestion

Nicfy is the ultimate platform for premium domain name acquisition and naming services. Our intuitive sorting and filtering options empower users to find the perfect domain name for their project or business with ease. Leveraging advanced search capabilities, including synonyms, Nicfy ensures a streamlined and efficient domain search experience. Admin seamlessly manages domain portfolios with our bulk upload and management feature. Keep track of your preferred domain names with our convenient wishlist functionality.

The screenshot displays the Nicfy website interface. At the top, the Nicfy logo is on the left, and navigation links for Home, About, and Contact us are on the right. A heart icon is also present. The main content area features a section titled "For More Domain" with a "Browse More >" link. Below this, a domain listing for "Allfay.com" is shown. The listing includes a "11 Views" indicator, an "Offer Price" of "\$1199", and two buttons: "Buy From Dan.Com (A GoDaddy Brand)" and "Inquire AND/OR Make An Offer". The domain name "Allfay" is displayed in a stylized font on a dark blue background with a colorful logo. Below the listing, there are tabs for "DESCRIPTION", "KEYWORDS", "HOW IT WORKS?", and "FAQ". The "DESCRIPTION" tab is active, showing a detailed description of the "AllFay" brand name and a list of "Possible Uses" for the domain.

DESCRIPTION

Description

"AllFay" blends the inclusivity of "All" with the mystical charm of "Fay," creating a captivating, six-character brand name that's easy to remember. "All" suggests universality and accessibility, appealing to a broad audience with the promise of belonging and inclusion. "Fay" introduces an element of enchantment and whimsy, hinting at offerings that transcend the ordinary with a touch of magic. Together, "AllFay" embodies a brand that marries widespread appeal with the extraordinary, aiming to enrich everyday experiences with moments of wonder.

Possible Uses:

1. Eco-conscious products that marry sustainability with enchantment.
2. A beauty brand offering magical allure for all skin types.
3. Toys that encourage imaginative play across age groups.
4. Fashion that blends inclusivity with fantastical elements.
5. Event planning services that create mesmerizing experiences.
6. A streaming platform with content that captivates all ages.
7. Wellness products that combine natural ingredients with mystic vibes.
8. Culinary creations that turn ordinary meals into magical moments.
9. Home decor that infuses spaces with whimsical charm.
10. Educational apps that make learning an adventure for everyone.

Keywords

Key Features

Sort and Filter Domains : Easily organise and narrow down domain options based on specific criteria such as price, extension, keyword relevance, and more, ensuring a tailored browsing experience.

Advanced Search (Using Synonyms) : Utilise advanced search functionality that incorporates synonyms to broaden the scope of domain name exploration, allowing users to discover relevant options they may not have considered otherwise.

Bulk Domain Upload and Management : Seamlessly upload multiple domain names at once and efficiently manage them within the platform, saving time and effort for admin managing large portfolios.

Wishlist : Save and keep track of preferred domain names by adding them to a wishlist, enabling users to revisit and consider these options later without the need for additional searches.

Domain Management : Enjoy comprehensive tools and features for organizing and maintaining domain portfolios, including editing, updating, transferring, and renewing domains, all within one centralized platform for convenience and efficiency.

The screenshot displays the Nicfy domain marketplace interface. A search overlay is active, showing a search bar with the text "Search...", a search icon, and a list of recommended search categories: Entertainment, Agriculture, Medical Devices, Tourism, Defense, and Software. Below the search bar, it indicates "2,339 results found in 2ms". The overlay also shows a dropdown menu for "10 per page" and a dropdown for "Relevance".

The background shows a user dashboard with the Nicfy logo and a welcome message: "Welcome, Mitali lalani". Below the dashboard, there is a table of domain listings with the following columns: ID, Domain, Domain name, Upload Date, Price, and Actions. The table contains 10 rows of domain listings, each with a unique domain name, a corresponding icon, the domain name, the upload date (18-07-2024), the price, and an "Active" button.

DESCRIPTION KEYWORDS HOW IT WORKS? FAQ

Description

BioQart marries "Bio," signifying life, nature, and organic essence, with "Qart," a play on "Cart," evoking the utility and accessibility of shopping and transport. "Bio" evokes greenery, sustainability, and a commitment to natural well-being, appealing to eco-conscious consumers and those interested in products that honor and sustain the earth's resources. It suggests a brand deeply rooted in the principles of ecological balance, health, and organic living. "Qart" with its allusion to a cart

HRMS

HRMS Portal

Performance Monitoring

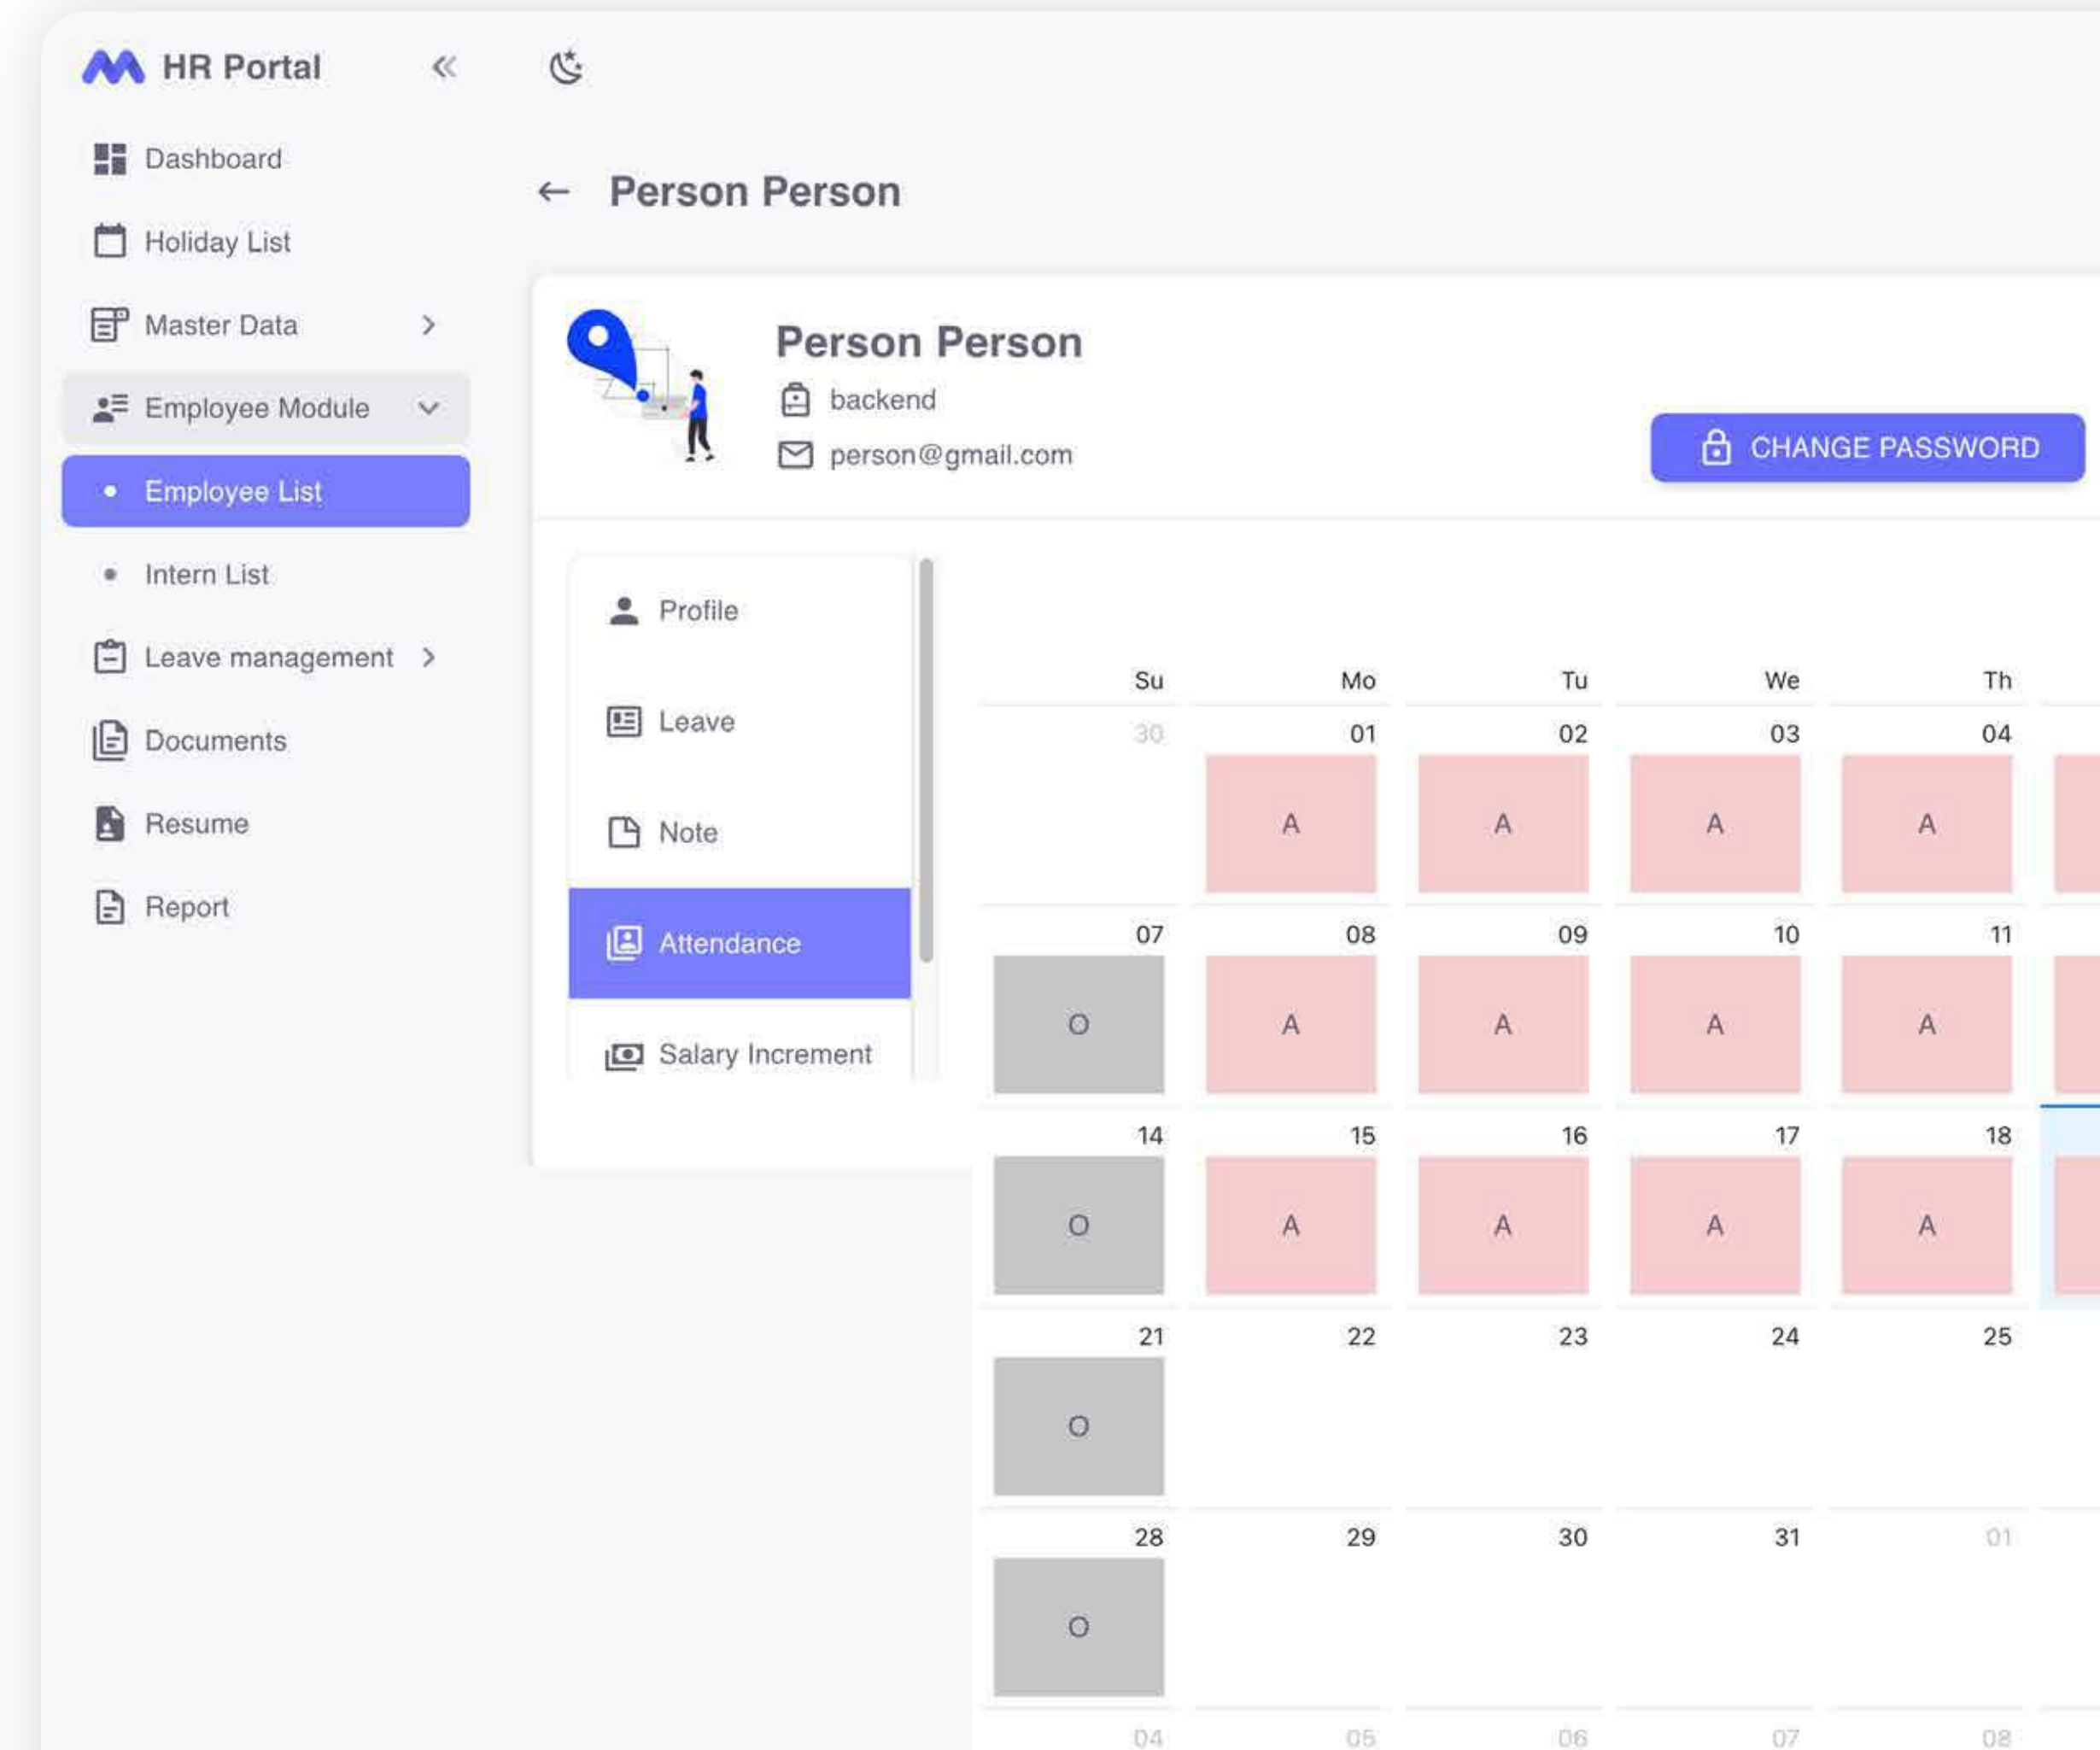

Attendance

Payroll Management

Attendance Management

Document Management

Introducing **HRMS Portal**, designed specifically for the IT industry, offering seamless HR management and performance monitoring. Administrators can efficiently handle tasks such as leave management, attendance tracking, and accessing comprehensive employee profiles. Employees can easily punch in/out, apply for leave, and track their salary, ensuring smooth operations and productivity. With user-friendly features and comprehensive functionality, HRMS Portal simplifies HR processes for both administrators and employees in the IT sector.

Key Features

Dashboard : Get a comprehensive overview of your workforce with real-time metrics on total employees, attendance status, pending approvals, upcoming employee birthdays, work anniversaries, and leave statuses, all conveniently displayed in one central dashboard.

Performance Monitoring : Track employee performance effortlessly through parameters like Active Participant, Technical Skills, Communication, enabling administrators to assess productivity and make informed decisions.

Employee Management : Streamline HR tasks with features including leave management, notes for employee communication, attendance tracking, and access to salary slips and general documents, ensuring efficient management of employee data and records.

Leave Management : Simplify the leave application process for employees and administrators alike with features to apply for leave, view leave balances, and manage leave requests, promoting transparency and accountability in leave management.

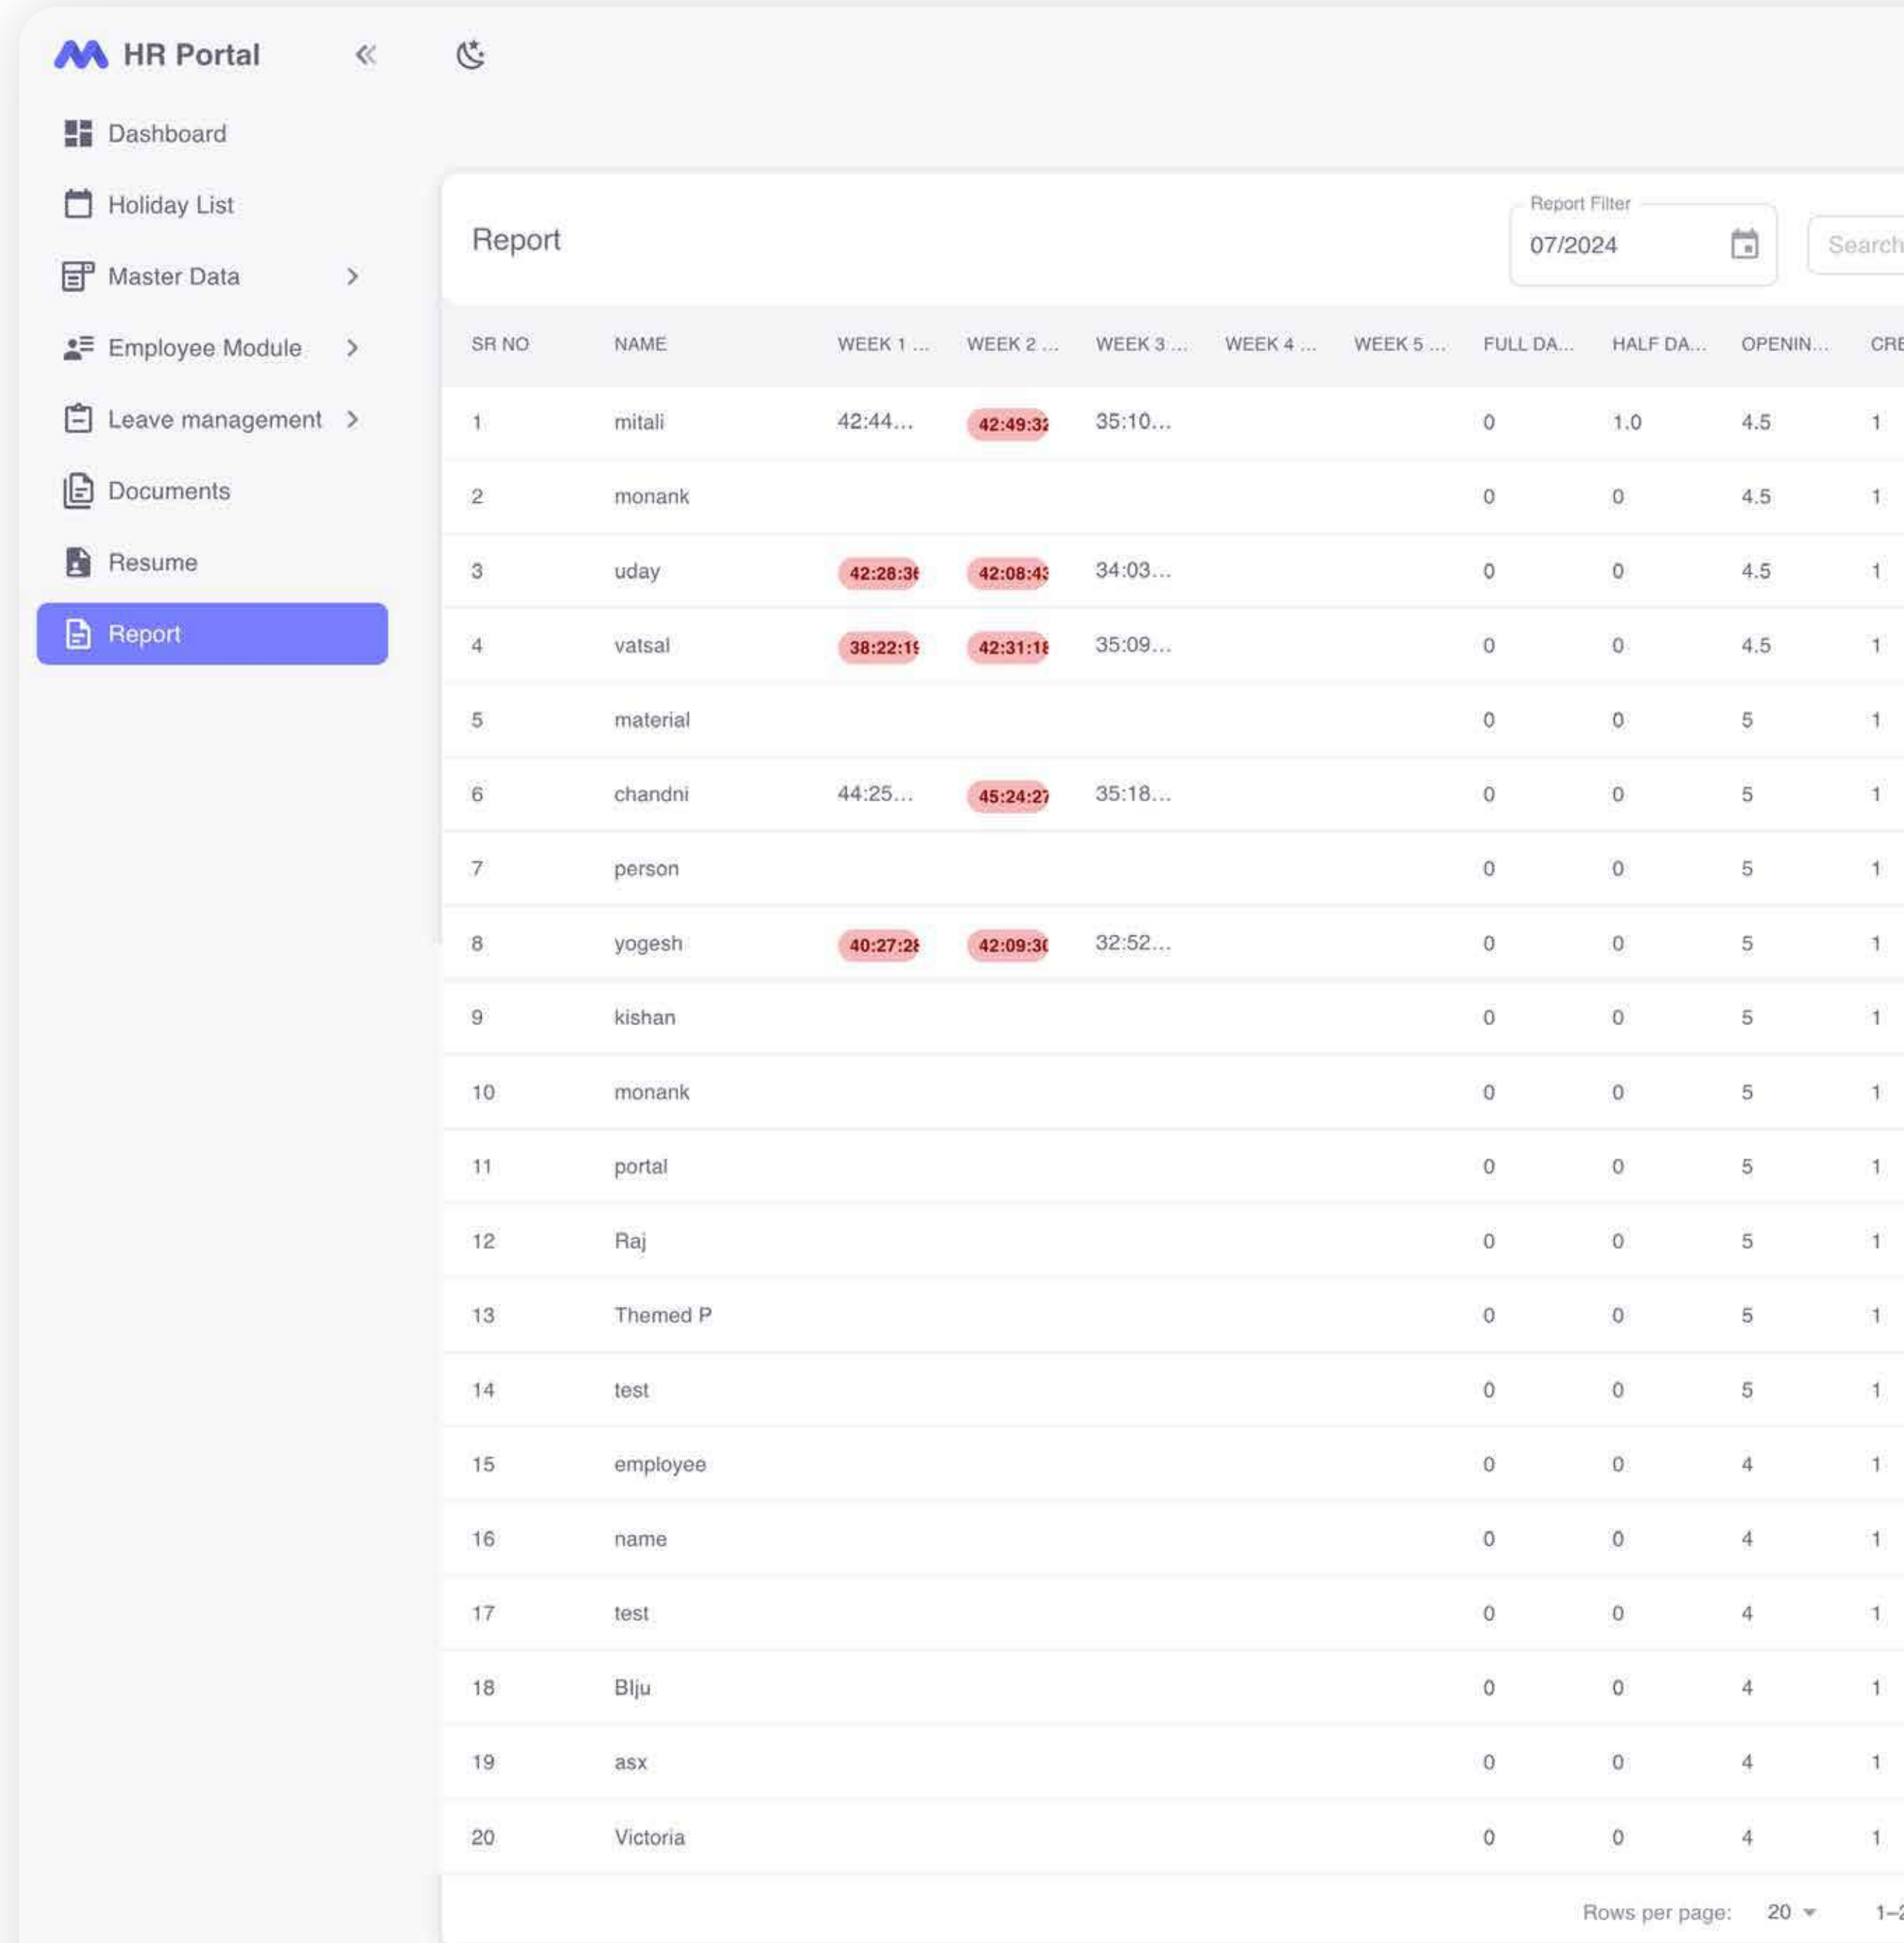

Salary Management : Enable employees to conveniently track their salary details, including access to salary slips and archive lists, providing transparency and clarity in salary management processes.

A Smart **RO Portal** for Manage RO Device and Water Quality

Smart RO Portal

Water Quality Control

IOT

Anomaly Detection

Technician Management

Device Update

Smart RO is an innovative portal designed for managing RO devices and ensuring optimal water quality through advanced IoT integration. This platform enables real-time anomaly detection, notification for change filters and comprehensive water quality control, ensuring that your RO systems operate at peak efficiency. Features include automatic device updates and efficient technician management, streamlining maintenance tasks and reducing downtime. With Smart RO, users gain the ability to monitor and control their RO plants remotely, enhancing operational reliability and water safety.

The screenshot displays the SMART RO ASSISTANT dashboard. The navigation menu on the left includes: Dashboard, Customers, Users, Technicians, **Devices** (highlighted), Sold Devices, Batch, Tickets, and Settings. The main content area shows a table titled "Device" with the following data:

Serial No	Device ID	Batch Number	MAC Address
1	RO202000008	BT0008	3c:71:bf:aa:f6:b0
2	RO202000008	BT0002	8c:4b:14:4b:31:e8
3	RO202304001	BT0002	8c:4b:14:4b:12:50
4	RO202306001	BT0002	8c:4b:14:47:8d:44
5	RO202400001	BT0002	3c:71:bf:aa:f7:20
6	RO202400002	BT0002	3c:71:bf:aa:d2:dc

Key Features

Dashboard : Access real-time data and analytics on water quality and device status through a centralised dashboard, simplifying overall system management.

Device Management : Easily adjust settings, monitor performance, and maintain optimal functionality of your RO devices with comprehensive management tools.

Technician Management : Efficiently assign tasks repair faulty RO based on notification, Assigned job and update job statuses in real-time to enhance service delivery and response times.

Device Firmware Update : Ensure your RO devices are always running the latest software for improved functionality and security with remote firmware updates.

Anomaly Detection : Detect operational anomalies early with advanced algorithms that alert you to irregularities, preventing potential issues.

Notification : Receive real-time notifications and alerts about maintenance needs, system alerts, or technician schedules, keeping you informed at all times.

IOT Solution For your **Vegetable Farming** at your Home

Most Advanced House Farming

Multi Farming Site Management

Crop's Nutrition & Supplement Management

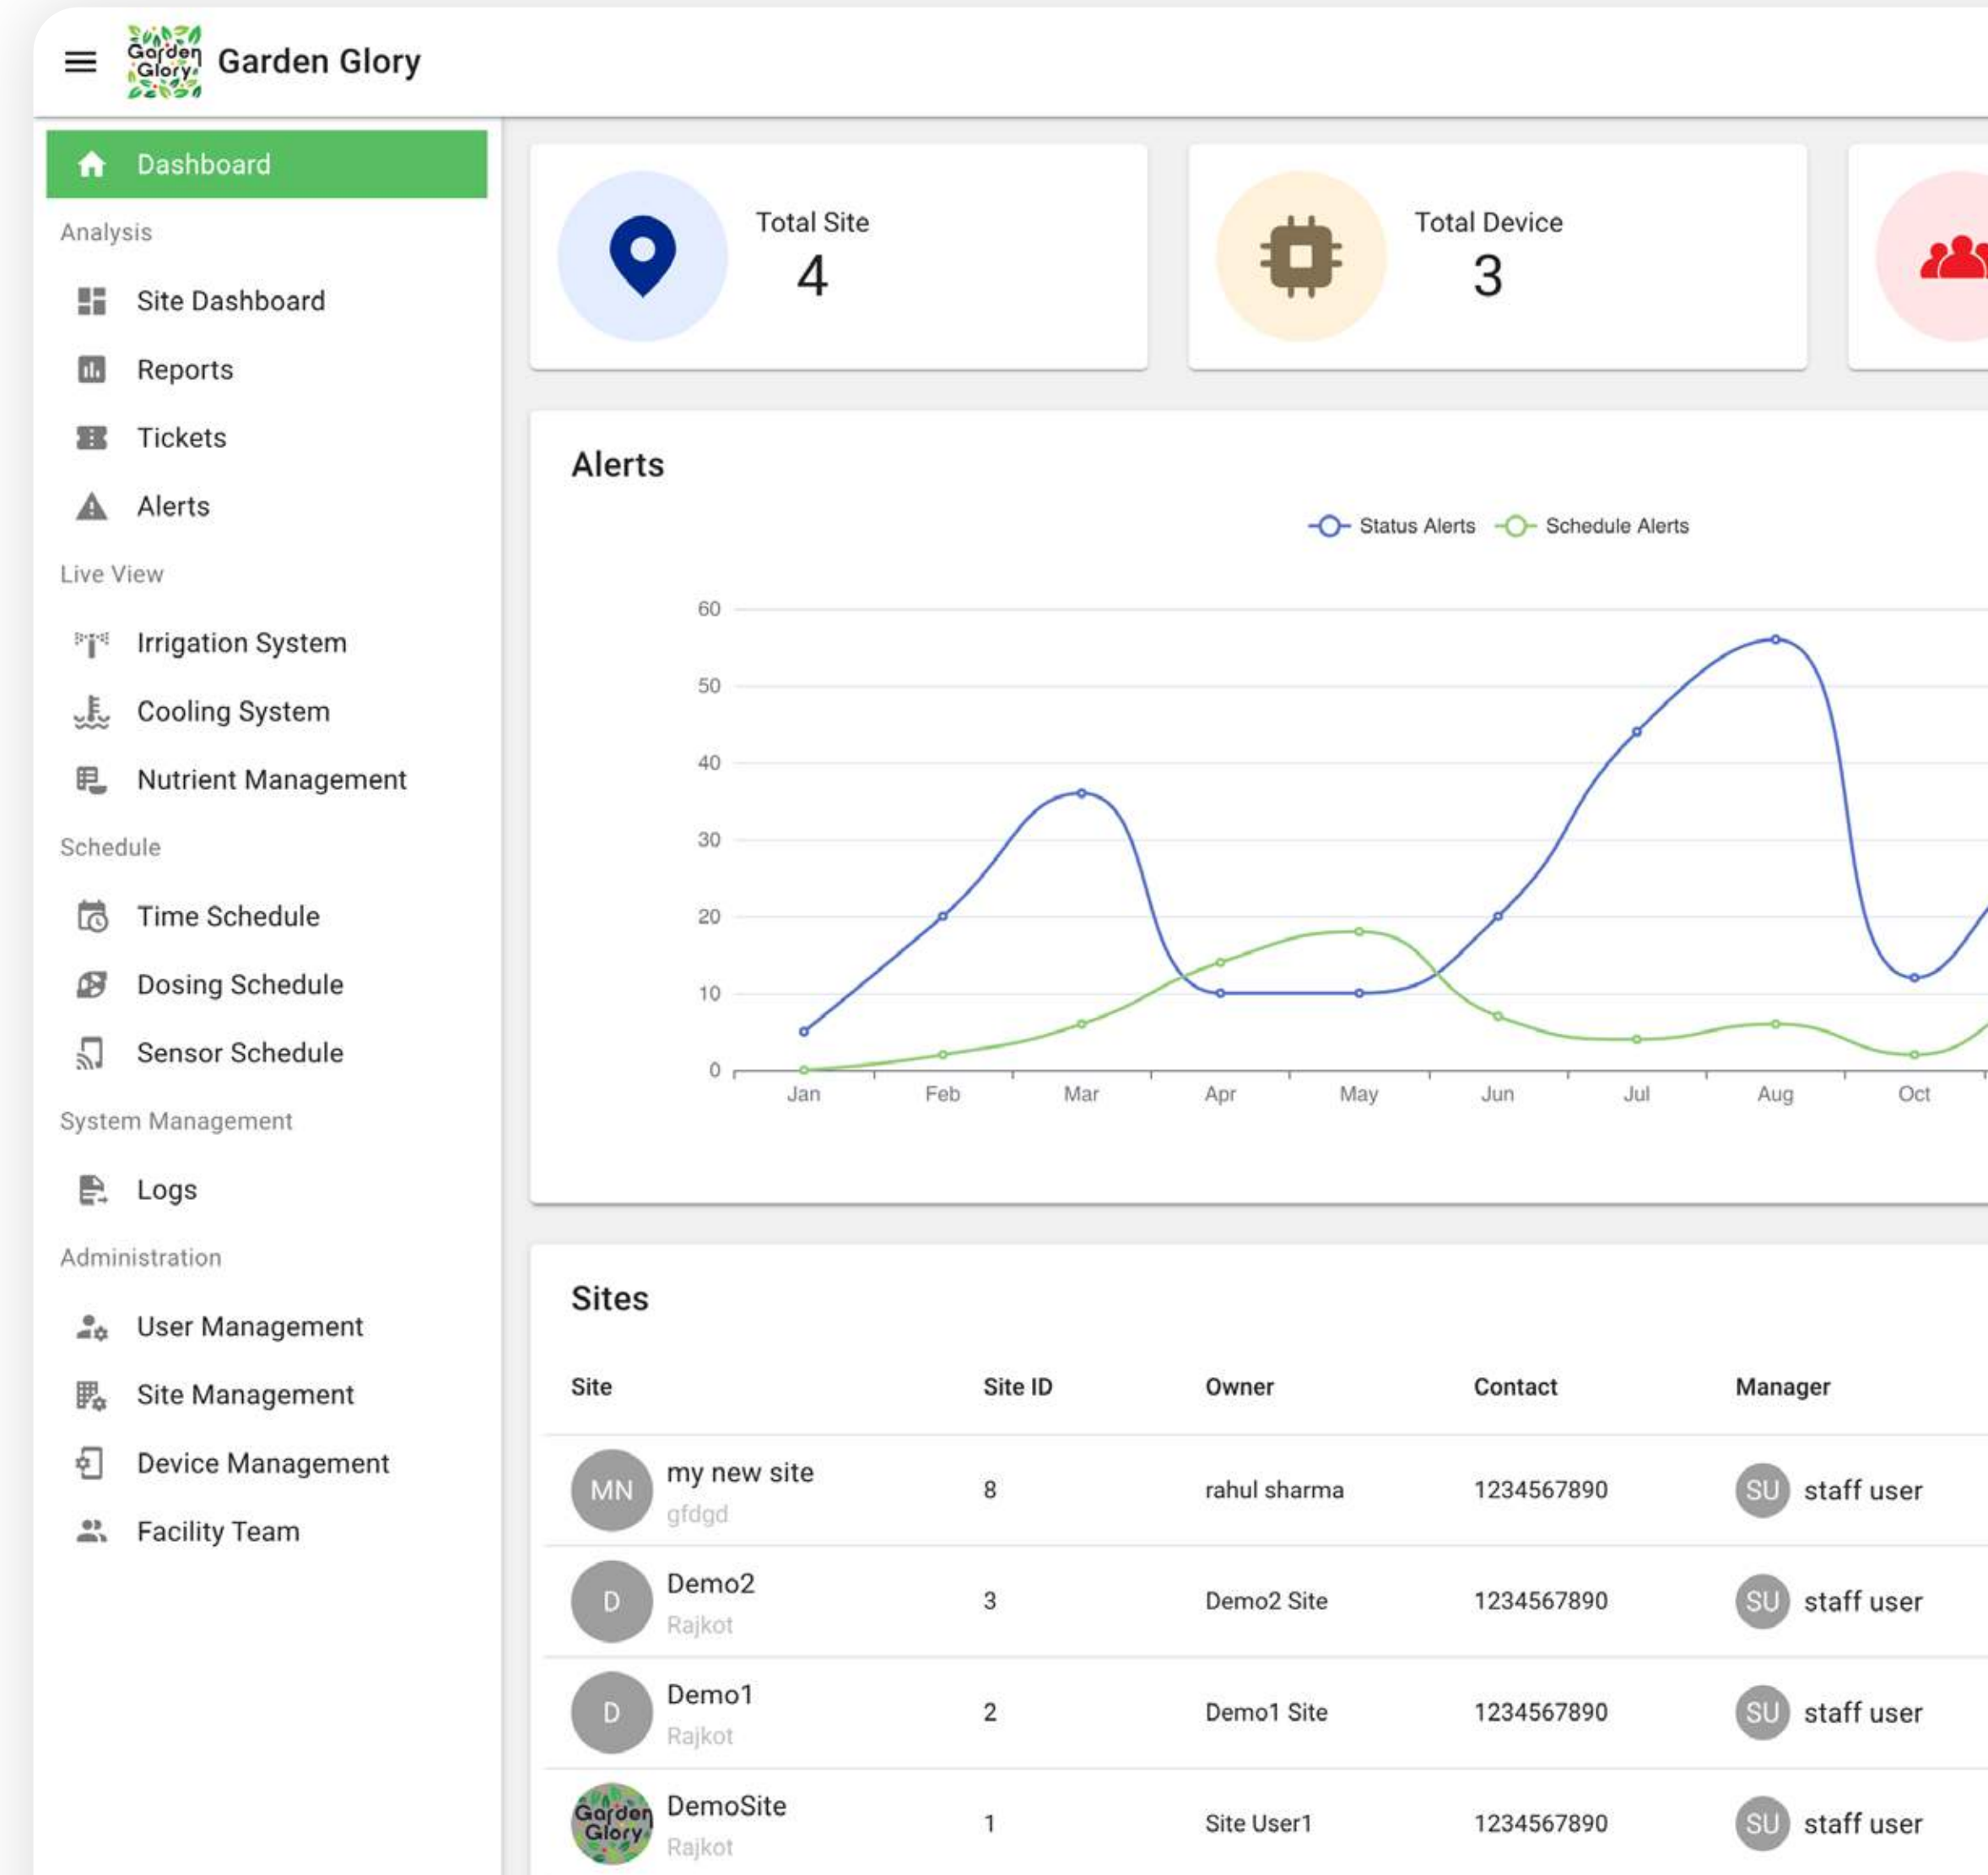

Climate Control

Technician Management

Anomaly Detection

Energy Management

Garden Glory revolutionises home vegetable farming with an advanced IoT solution tailored for terrace gardening. Manage multiple farming sites effortlessly, ensuring optimal crop nutrition and supplement management. Control climate conditions for ideal growth, while efficiently coordinating technicians and tasks. Stay informed with real-time notifications and proactive anomaly detection. With automated device updates and energy management features, Garden Glory empowers users to cultivate thriving vegetable gardens right at home.

Key Features

Multi Farming Site Management : Effortlessly oversee and coordinate multiple farming sites from a single interface, optimising productivity and efficiency across all locations.

Corp Nutrition and Supplement Management : Ensure the health and vitality of crops with precise nutrition and supplement management tools, tailored to meet the specific needs of each plant variety.

Climate Control : Maintain ideal growing conditions with climate control features, allowing users to regulate temperature, humidity, and other environmental factors for optimal crop growth.

Technician Management : Streamline technician scheduling and assignments with intuitive management tools, ensuring timely maintenance and support for farming operations.

Anomaly Detection: Proactively identify and address irregularities or issues in farming operations with advanced anomaly detection capabilities, minimizing risks and maximizing yields.

Energy Management:

Optimize energy usage and efficiency with energy management features, helping users reduce costs and minimize environmental impact while powering their farming endeavors.

PANJTAN
Society of Victoria

The **Regional Community** App

Community App

Programs / Event Management Management

Business Directory

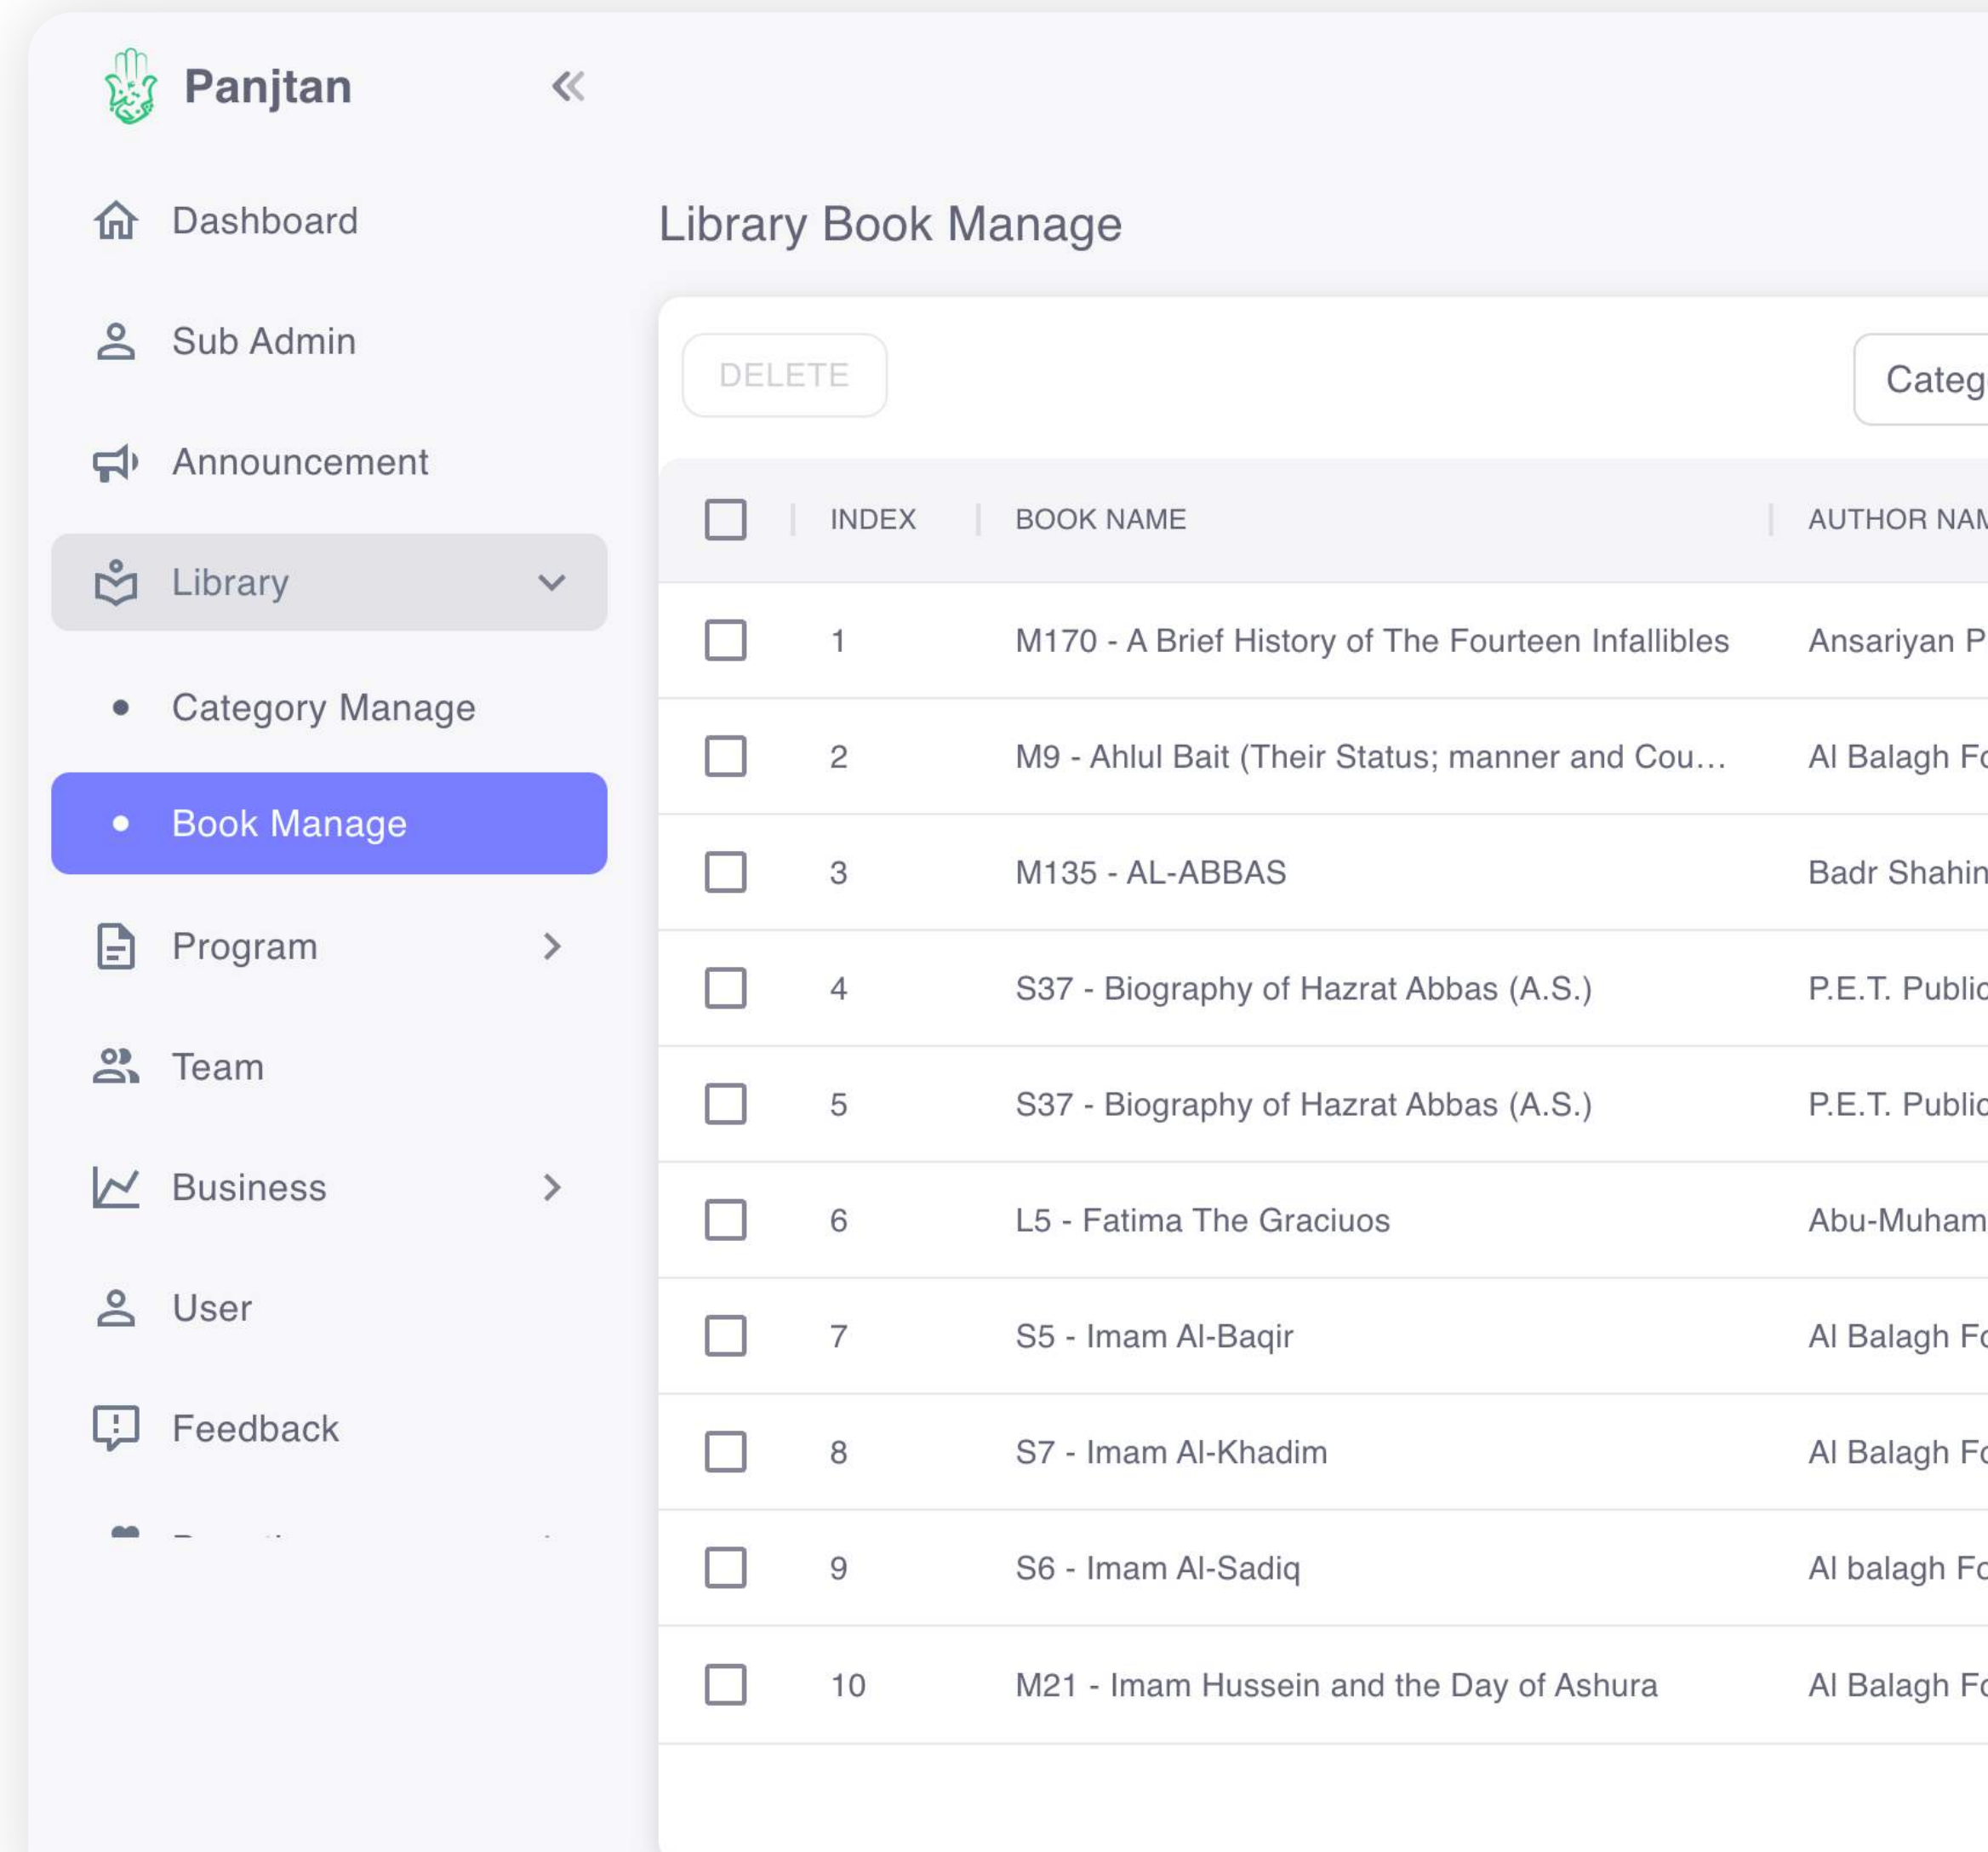

Regional Calendar

Donation Management

Library Management

Announce Management

Panjtan, the ultimate regional community app, brings together all aspects of community engagement in one convenient platform. Seamlessly manage programs and events, access a comprehensive business directory, and stay updated with a regional calendar of events. With efficient donation and library management features, users can contribute to community causes and access valuable resources. Stay informed with announcements tailored to community interests and needs. Panjtan empowers communities to connect, collaborate, and thrive together like never before.

Key Features

Programs / Event Management : Effortlessly organize and manage community programs and events, from scheduling and promotion to attendance tracking and feedback collection.

Business Directory : Access a comprehensive directory of local businesses and services, making it easy for community members to find and support local establishments.

Regional Calendar : Stay informed about upcoming events and important dates with a centralized regional calendar, ensuring that users never miss out on community activities.

Donation Management : Facilitate charitable contributions and fundraising efforts with streamlined donation management tools, enabling community members to support causes they care about.

Library Management : Access and manage a virtual library of resources, including books, articles, and educational materials, fostering knowledge sharing and lifelong learning within the community.

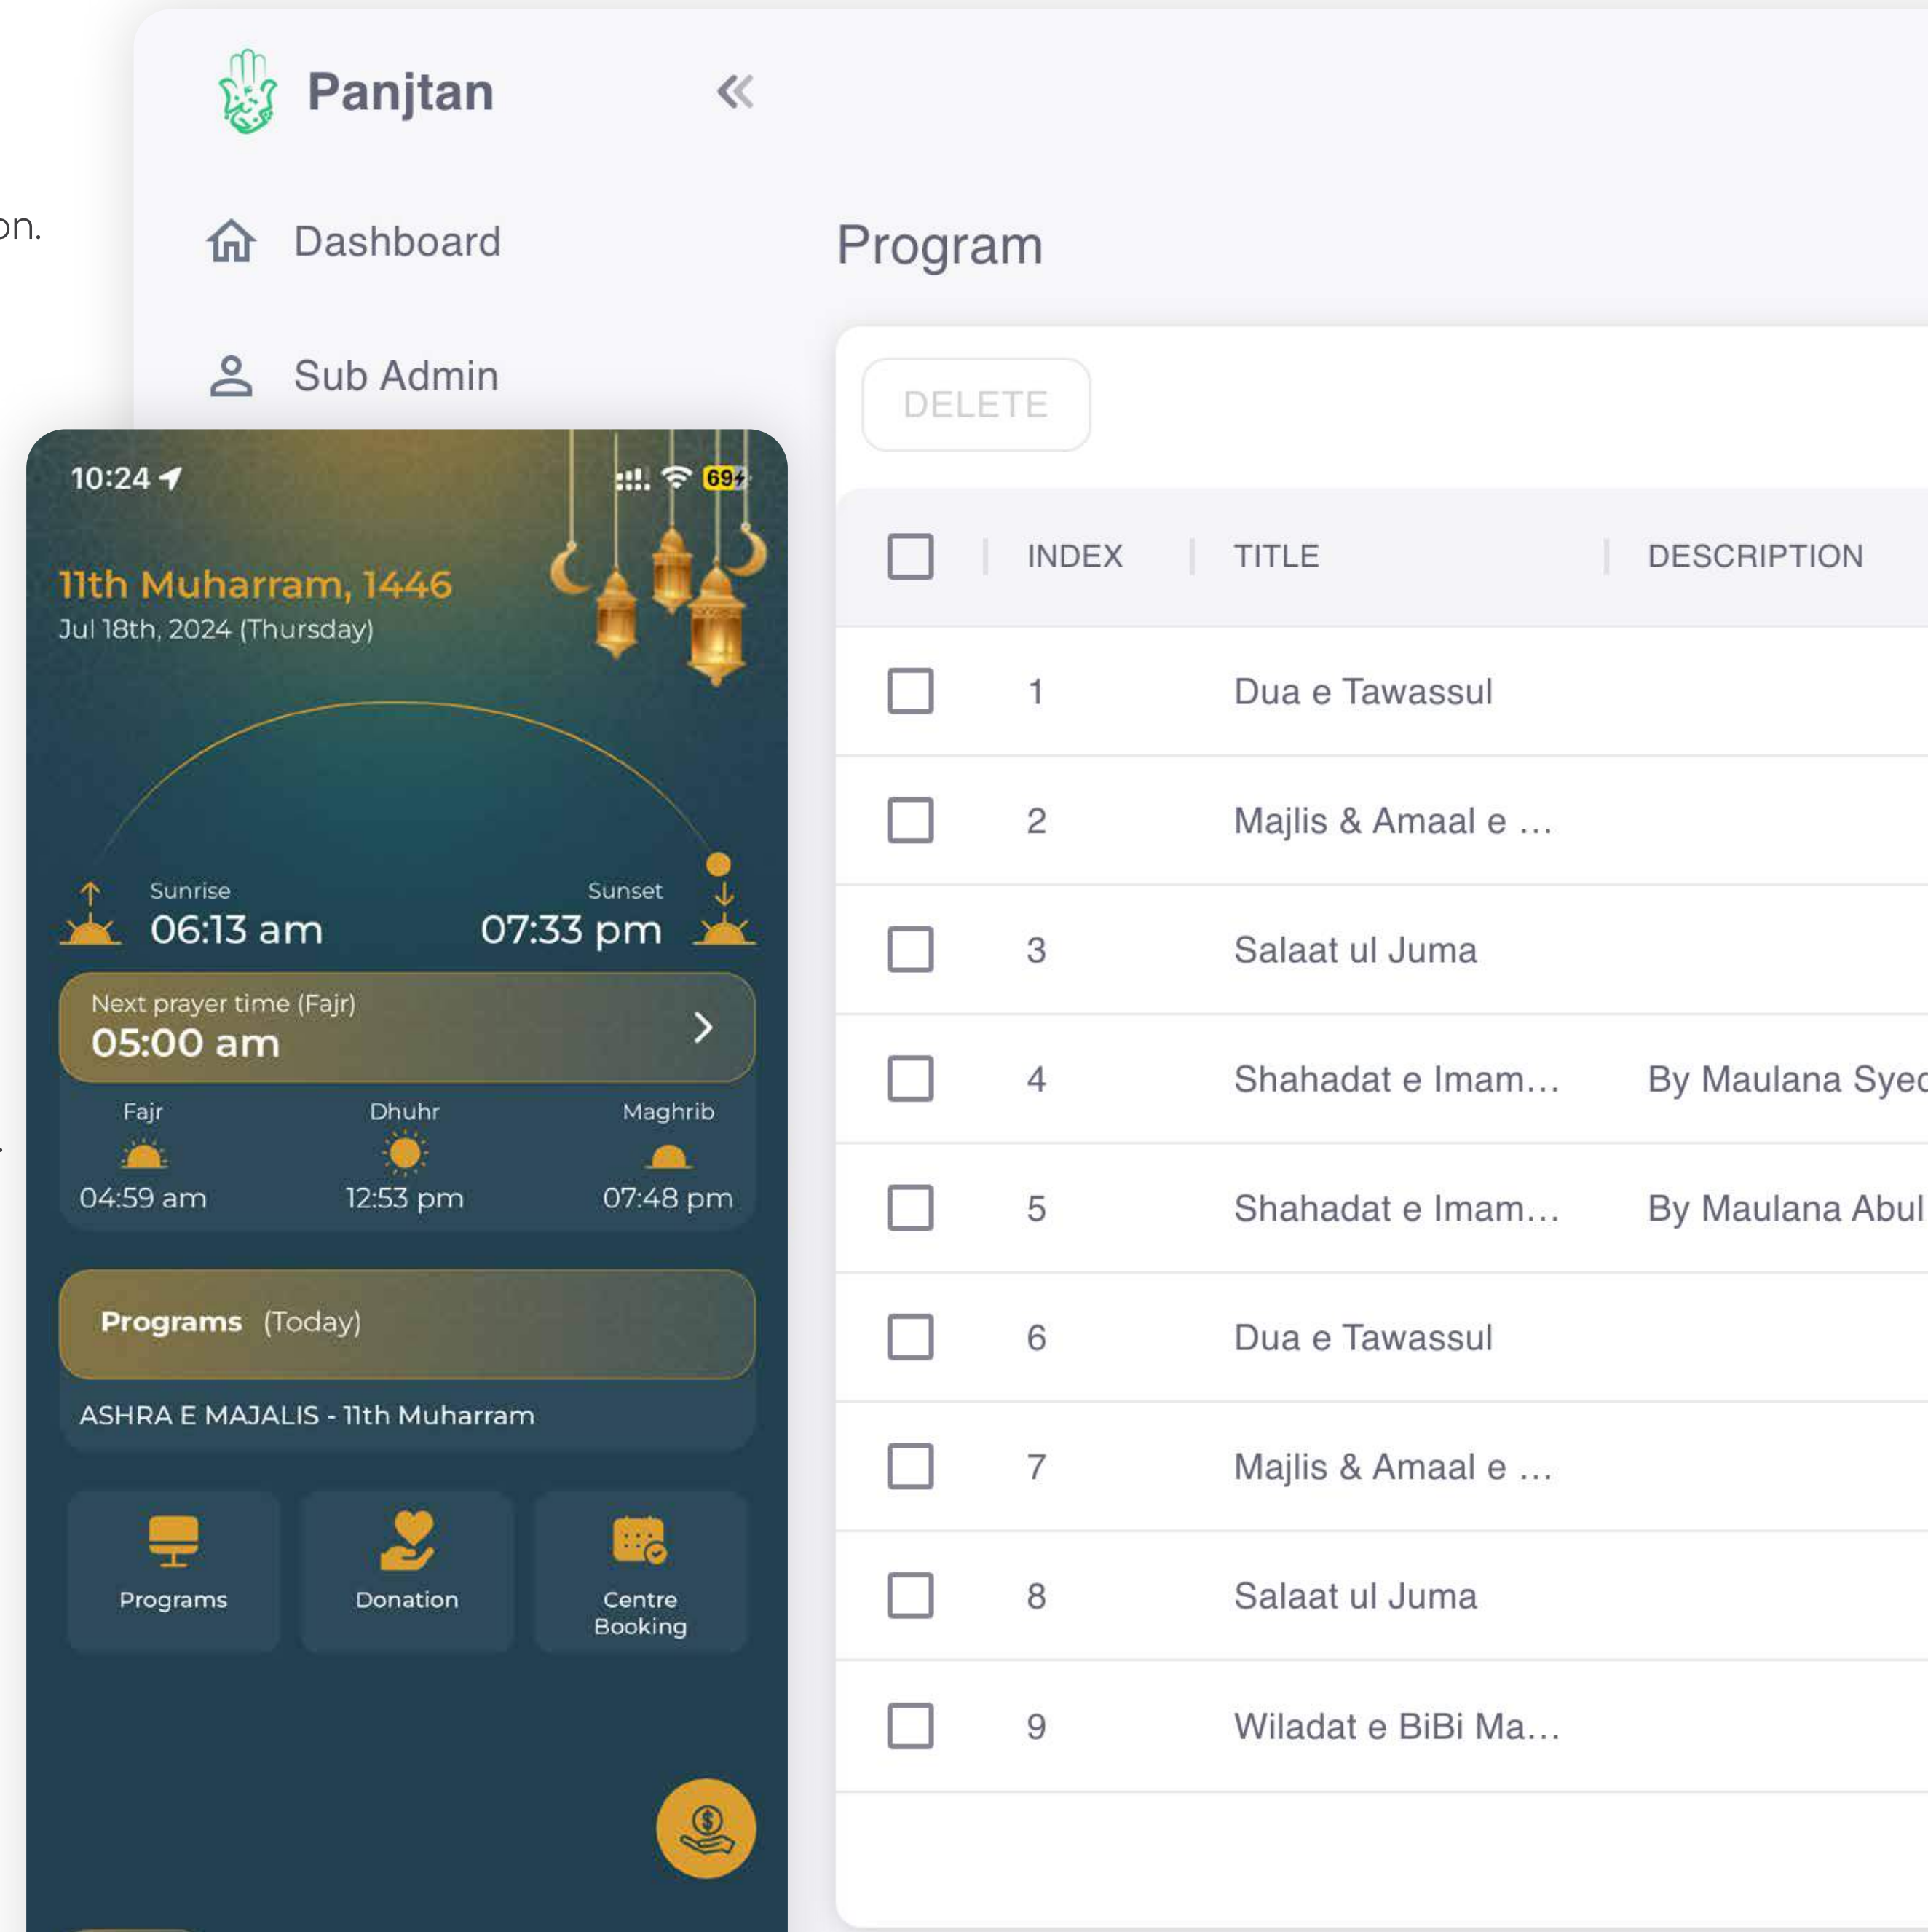

Announce Management : Share important announcements and updates with community members through targeted messaging, ensuring timely communication and engagement.
